About Us — ProHR AI

ProHR AI is an independent smart-recruitment and HR platform built on a decentralized verification system that connects job seekers with companies directly, verifying records and skills through blockchain technology. The platform combines the power of AI with the highest digital-safety standards to deliver a seamless, trustworthy hiring experience for small and medium-sized businesses as well as candidates.

AWS-Powered Backend

- Serverless architecture
- S3 resume storage
- DynamoDB database

Pi Network Integration

- Pi Wallet authentication
- Smart-contract payroll

AI Resume Screening

- Smart candidate matching
- Skills analysis

Quiet Luxury UI / UX

- Premium dashboard
- Intuitive HR admin tools

From Discovery to Launch

1

Discover ProHR AI

The next generation of decentralized recruitment and smart HR — an advanced platform connecting talent with companies directly, verifying records and skills via blockchain for complete integrity and security.

2

Get Started with the AI Assistant

ProHR AI Assistant: your AI assistant for HR & PRO documents — streamlining paperwork and employee requests for small businesses.

Hello! I'm your AI assistant for HR and PRO document services. I can help you draft employment letters, manage company policies, and handle corporate paperwork easily. How can I assist you today?

3

Get Verified — Trust & Security

Every profile, document and contract is protected end-to-end. A decentralized verification system is securely integrated to protect the smart HR environment, following the highest digital-safety standards.

Track Your Progress

A real-time snapshot of your hiring pipeline, with precise performance indicators to guide your decisions.
